Tools & Practices: Git, Agile/Scrum, Jira, Web Performance Optimization, Lighthouse, Accessibility (WCAG), Replit, Cursor, VS Code

Professional Experience

Freelance Web Developer | CMS Specialist

Upwork | Feb 2022 – Present

- Delivered 100+ projects across web and mobile platforms, earning 97% Job Success and 5-star ratings.
- Collaborated with clients to gather requirements, provide updates, and incorporate feedback, ensuring final products met all specifications and exceeded expectations.
- Optimized websites for SEO and performance.
- Managed the full project lifecycle, including deployment via Netlify and Vercel, ensuring a seamless handover.
- Built Over 50 websites on Wix and WordPress in a calendar year having an average of 4.9-star reviews

Frontend Developer

TWL Apps | May 2020 – Feb 2022

- Led the redesign and development of the company's flagship SaaS product using React, TypeScript, and Next.js, resulting in a 40% increase in user engagement and a 35% decrease in bounce rate within the first quarter post-launch.
- Spearheaded the adoption of a modern frontend tooling stack, migrating from Webpack to Vite, which cut local development build times by over 70% and improved developer experience and productivity
- Optimized core web vitals (LCP, FID, CLS) by implementing code-splitting, lazy loading, and efficient caching strategies, achieving a Google Lighthouse performance score above 95.
- Collaborated closely with UX designers and product managers in an agile environment to translate complex business requirements into elegant, intuitive, and accessible user interfaces.

Junior Frontend Developer (Apprenticeship)

TWL Apps | May 2019 – Nov 2021

- Assisted in developing and testing web applications ensuring cross-device responsiveness.
- Built reusable React components and improved frontend workflows using Git.

Education

Obafemi Awolowo University – Bachelor's Degree, Computer Science (2018)

Selected Projects

Weather App (Freelance Project) | React, OpenWeather API, Axios

Created a weather application for a client that displays current and forecasted weather based on user location or search. Focused on error handling and a clean, intuitive user interface

E-Commerce Store (Personal Project) | React, Context API, CSS Modules

Built a fully responsive mock e-commerce site featuring a shopping cart, product filtering, and a clean UI. Implemented state management without external libraries to deepen understanding of React fundamentals.

Languages

- English: Native / Bilingual
- Yoruba: Native / Bilingual
- Spanish: Basic

Achievements & Highlights

- Top-Rated Freelancer on Upwork (awarded to the top 10% of talent), maintaining a 97% job success score and a perfect 5-star client rating across 110+ completed projects.
- Successfully delivered over 100 custom websites and 10+ cross-platform mobile applications for a diverse international clientele, from startups to established businesses.
- Generated over \$20K in earnings through freelance platforms by consistently delivering high-value, client-focused solutions on time and within budget.
- Recognized by clients for expertise in migrating and redesigning websites to modern tech stacks (e.g., to React, Next.js, Wix), resulting in improved SEO, user engagement, and site performance.
